Summary

Self-taught and passionate Cyber Security Enthusiast. Skilled in Ethical Hacking, Linux, Red Teaming, Information Security, Web Application and Network Security. Always in pursuit of learning more and more. I have done Various Courses on programming as well as on Offensive Penetration testing. In my free time, I hunt for bugs, root boxes on THM & HTB. My natural curiosity for computers is what drove me towards computer science.

Experience

UGC Author

OffSec

Mar 2022 - Present (1 year 11 months)

Submitted 14 approved machines to Offensive Security's UGC program for students to train their cybersecurity and pentesting skills! This includes building a working webserver hosting a web application with multiple intentional security issues and a custom designed privilege escalation vector for gaining root privileges for each machine.

Founder

EdZone
